

KART & RACE CHAINLUBE AEROSOL

High Temperature Performance - Maximum Adhesion

Description

Kart & Race Chainlube is suitable for all competition engines with chain drive. A thin film provides anti wear and rust protection. Kart & Race Chainlube penetrates directly, will not fling off and is not affected by extreme temperatures.

Before use : clean your chain thoroughly.

This product of very high quality shows the following characteristics:

- Extra water repellent
- High corrosion and wear resistance
- Maximum adhesion
- Resistant to temperatures up to 180 °C
- Experience shows a prolonged life span of the oil under extreme conditions
- Prolonged life span of the chain, also under extreme conditions

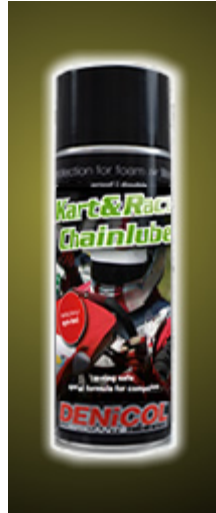

Available in

Carton of 12x400 ML.

Application

For all competition engines with chain drive and industrial applications.
